The hotel offers modern comforts matched with unparalleled service. Guests can enjoy sumptuous food selection at Orchid Restaurant, R Cafe and the 24-hour room service, as well as the hotel’s first-rate facilities including a gym, indoor swimming pool, spa, and free access to its exclusive beach club.
Sustainability at Ramada Hotel & Suites Ajman

Ramada Hotel & Suites Ajman has been on the forefront of sustainability and CSR innovation for years, continuing to develop and implement initiatives that create positive experiences for associates, guests, and the surrounding community and environment.

The property has implemented impressive green measures for sustainability, such as an in-house compost machine, an urban farm and a reverse osmosis plant for water treatment. Adding to this, Ramada Hotel & Suites Ajman recently installed a dewaterer and macerator machine to streamline its waste management scheme and save on cost, time and labour.

The property also regularly teams up with various organisations on different sustainable projects including Sealed Air’s “Soap for Hope”, and Emirates Environmental Group’s “Your Can for Tree” campaigns, among others.

To step up its CSR programmes, the property recently joined the United Nations Global Compact, the largest corporate social responsibility initiative in the world. Aimed at promoting sustainable development and good corporate citizenship, the initiative covers ten fundamental principles in the areas of Human Rights, Labour, Environment, and Anti-Corruption.

All year-round, the team does their share for sustainable tourism through regular beach clean-ups and organising activities for Earth Hour, Earth Day, World Environment Day. Through their incessant efforts, the hotel looks ahead to well-preserved environment for the future generations.

Over the years, Ramada Hotel and Suites Ajman, led by General Manager Iftikhar Hamdani, has been actively leading sustainable tourism initiatives within the UAE’s hospitality sector. As a testament to its successful green campaigns, the hotel has won several awards, citations and certifications including Green Globe, making it the first hotel in Northern Emirates to receive the prestigious certification since 2015.
Vision
Committed to become a responsible role model in the hospitality, and ultimately inspire our industry to do their share for an environmentally, socially responsible global economy

Mission
Ramada Hotel & Suites Ajman aims to develop and implement initiatives that create positive experience for associates, guests and the surrounding community and environment.

Goal
Our goal for year 2017 is to reduce the electricity consumption by 1%, reduce water consumption by 1% and reduce the waste to the landfill by 2%.

Our Sustainability Management Plan comprises of 4 key areas:

I. Environmental – to be actively involved in conserving resources, reducing pollution, conserving biodiversity, ecosystems and landscapes.

II. Socio-cultural – to be involved in corporate social responsibility actions, community development, local employment, fair trade, support local entrepreneurs, respect local communities, implement a policy against exploitation, equitable hiring, employee protection and last but not the least, that our business do not jeopardize the provision of basic services, such as water, energy or sanitation to neighbouring communities.

III. Quality – any activity that can sustain itself economically through creating competitive advantages within the industry with inspired service that not only meets, but exceeds guest expectations; it continues to contribute to the economic well-being of the surrounding community through local ownership, employment, buying local products, etc. A sustainable business should benefit its colleagues, customers, business partners, owner, and other stakeholders.

IV. Health & Safety Issues – Ramada Hotel and Suites complies with all established health and safety regulation, and ensures that both guest and colleagues are safe and secure in the environment they work and visit.
Sustainability Management Plan: Environmental

I. Environmental – to be actively involved in conserving resources, reducing pollution, conserving biodiversity, ecosystems and landscapes.

a. **Conserving Resources: Consumable Goods**
   - Ramada Ajman has a policy of favouring certified suppliers or suppliers following best environmental and social practices. Formulate Purchasing Policy.
   - Food purchased locally (within 160 kilometres or 100 miles), preference given to local products.

b. **Conserving Resources: Energy & Water Consumption**
   - At Ramada Ajman, we measure, monitor and record our energy usage (electricity, water and gas) and aim to reduce where possible.
   - At Ramada Ajman, we encouraged all staff to save electricity through briefings and monthly gatherings.
   - Key Card Control system is installed in every room to control the lighting and air-conditioning when room is not use.
   - Curtains & Blinds Policy in placed to close blinds and curtains during peak summer periods in the guest rooms
   - Property wide Computer Shutdown Policy - all back of house offices
   - Preventative Maintenance Policy in place with regular checks on all equipment
   - Towel and Linen re-use are in placed
   - Motion sensors on all basins, toilets in public restrooms and spa
   - Kitchen faucets are low flow and Kitchens have hands-free taps (knee-peddle operated)

c. **Conserving Biodiversity, Ecosystems and Landscapes**
   - Information about and interpretation of the natural surroundings, local culture, and culture heritage is provided to guest, as well as explaining appropriate behaviour while visiting natural areas, living cultures and cultural heritage sites.
   - Endanger species, product thereof, or items stemming from unsustainable practices are not consumed, sold, traded or displayed in the Hotel.
   - Hotel uses native species for landscaping and green areas and takes measures to avoid the introduction invasive non-local species.
   - Hotel uses plants and trees tolerant of the local climate, soil and natural water availability.
   - Any disturbance or damage harmful to wildlife animals or plants by tourism activities is avoided. NO captive wildlife is held in the Hotel.

d. **Reducing Pollution & Waste**
   - Pollution Management Plan is in placed
   - At Ramada Ajman, the waste volume/weight and reduction goals are specified, recorded and monitored.
   - Waste Management Plan is in placed
   - Business supports and joins regional available recycling programs, such as Emirates Environment Group (EEG), Sealed Air.
   - Used oil recycling programs are joined with Lootha Biofuels
   - Restaurant offers half-portion options - available to all guests and Portion-controlled condiments are offered upon request only.
Environmental Policy

Ramada Hotel & Suites Ajman is fully committed to environmental sustainability and to minimize negative impacts to the Mother Nature and promotes environmentally friendly culture with our internal and external associates during the hotel operation.

Environmental Policy states the commitment of an organization to the laws, regulations, and other policy concerning environmental issues. This policy can be deliberately taken to direct and oversee human activities and thereby prevent harmful effects on the biophysical environment and natural resources, as well as to make sure that changes in the environment do not have harmful effects on humans.

Our key environmental objectives are to:

- Comply with all necessary environmental legislation, rules & regulations.
- Protect environment and prevent pollution of water, land and air.
- Involve community in exemplary environmental activities to minimize wastes and prevent pollution to the environment.
- Maximize the use of recyclables and reusable materials and adopt renewable energy sources to promote sustainability.
- Conserve natural resources, wildlife and scarce species.
- Optimum utilization of resources or reduce wastage cause through consumer returns.
- Use environmental friendly chemicals and implement proper waste management system.
- Educate or train Associates and communicate to the Public about the environmental concerns or issues.
- Create a positive environmental culture with the hotel to reduce land fill.
- Implement appropriate control measure when environmental hazards are identified.
